

Weber School District Guide to Lucidchart

An easy-to-use diagramming tool that's integrated with Google Apps.

ABOUT

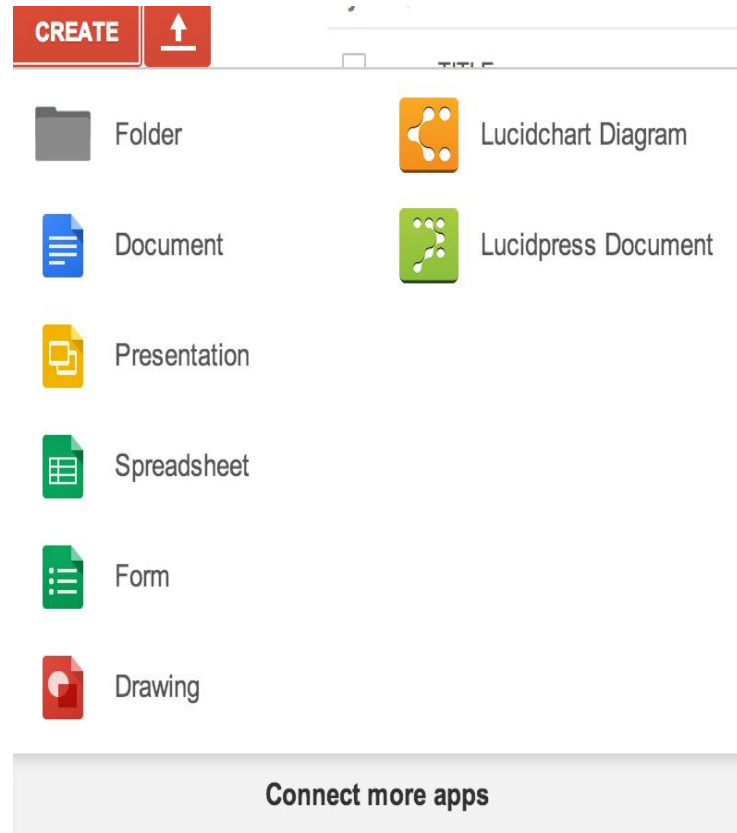

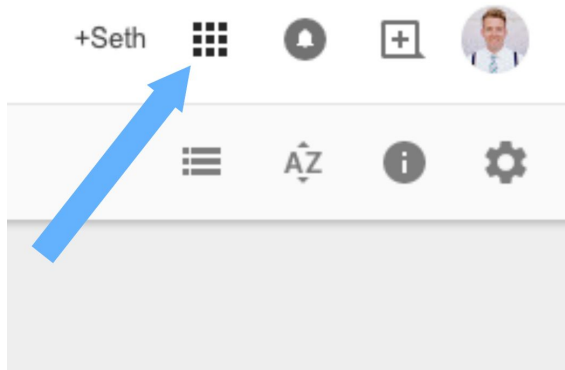

Lucidchart is a web-based diagramming tool that allows users to collaborate in real time to create flowcharts online, as well as Venn diagrams, mind maps, and mockups for websites or mobile apps. Students and teachers can make comments, add images, import videos, and much more—all without leaving the editor.

Intro Video

```

allowfullscreen></iframe>
```

ACCESS

- Log in to Lucidchart at: <https://www.lucidchart.com/users/login>
- If your school uses Google Apps for Education, you can also log in from <https://www.google.com/drive/> by clicking the App Launcher (see below), then click “More” and select Lucidchart.

- You can also create a new Lucidchart document from Google Drive by clicking “Create” and selecting Lucidchart.

BASIC FEATURES

Lucidchart allows anyone to visualize tasks, ideas, and processes by dragging and dropping shapes onto the canvas. Once you’ve logged into Lucidchart, click “More Shapes” on the bottom-left side to see all of the use cases we support. You’ll find that Lucidchart is an easy-to-use diagram maker, flowchart maker, and even a Visio online alternative. Below are a few examples of what you can build with Lucidchart:

Administrators

- [Floor plans](#)
- [Flow chart maker](#)
- [Org chart software](#)

Classroom instruction

- [Venn diagram](#)
- [Mind map software](#)
- [Flowchart software](#)

Design / Layout

- [iPad mockup tool](#)
- [Android mockups](#)
- [iPhone mockups](#)
- [Wireframe software](#)

Lucidchart also includes collaboration features like multiple-user commenting and editing, real-time chat, and document sharing.

HELP

How can I get help with Lucidchart?

These resource centers can help you get acquainted with Lucidchart and explore its functionality in more detail.
