Area of Academic concern: Reading Math Writing Other _____

Social concern: Shy Talkative Behavior Other _____

Please describe the characteristics needed in a teacher to accommodate these concerns (no teacher's names please).

Please describe concern:

I understand that some classes cannot work with certain combinations of students, and I understand that there cannot be too many students assigned to one class; thus my concerns will be considered as best they can, but ultimately not all preferences can work in a school with 600 students. I also understand that trying to create a class based upon a favorite teacher, a rumor, to have a teacher a sibling had, or just to be with a good friend, makes classes very difficult to create and is often unfair to the students and the teacher of the class.
